AEROFIXX

Application Gun for AEROSANA® System Foil Cartridges

Technical data

	Material
Main component	Stable aluminium pressure cylinder, ergonomic nylon handle

Property	Regulation	Value
Colour		Black, grey
Length		445 mm
Width		276 mm
Height		83 mm
Weight		1.6 kg
Air flow rate		300 l/min
Operating pressure		Up to 6.8 bar (100 psi)
Storage		cool and dry

Areas of application

For quick and easy application of AEROSANA® VISCONN and AEROSANA® VISCONN FIBRE sealants from 600 ml foil sausage. For use with air compressors capable of 6.8 bar (100 psi), 300 L/min air flow.

Supply forms

Art. no.	Length	Width	Height	Weight	GTIN
1AR02714	445 mm	276 mm	276 mm	1.6 kg	4026639227140

Advantages

- ✔ Work more quickly: application and spreading of liquid sealant in a single working step
- ✔ Precise application of sealant: Different settings allow for bead or spray
- ✔ No brush required
- ✔ Pressure: up to 6.8 bar (100 psi)

General conditions

The AEROFIXX device is connected to a compressor with a flow rate of >300 l/min. The pressure should be set to 6 bar. The double nozzle creates a venturi effect for spraying product. All AEROSANA VISCONN products in 600 ml foil cartridges can be applied using the AEROFIXX device. You can easily switch between line application and spray application by turning the spray head.
